SYNOPSIS:

With strong value creation mindset and cognitive load management capabilities, I have evolved during the last one decade through my appropriate academic and experiential learning which paved my path to where I am today. I am equipped with a right blend of technical & behavioral competencies required in a modern digital era with a belief to help and serve the community at a global level. Therefore, I believe I carry the right set of competencies essentially required to get into the role you are here to hire for.
